

WELCOME TO OUR FEBRUARY 2018 NEWSLETTER

Niche Alcohol Supplies with GINEVA had a successful Christmas period – A big Thank You to all our customers old and new.

Moving on and with the New Year well and truly in the past – We have some exciting projects up our sleeve which includes the launch of a very special Olive based Gin “La Mallorquina” – again made with the finest Olive’s harvested, by hand, from centuries old trees that are found growing between rocks in the Tramuntana

Mountains and only found on the island of Mallorca. The first batch of just 3000 bottles is planned for release in April.

ARTISAN OLIVE EXTRA DRY GIN distilled to perfection by Eva & Stefan SPECIAL EDITION

In April GIN EVA are launching a taster set with 3 x 10 cl casks of various GIN’s allowing

you to try before buying a larger bottle. The first pack of three will show case GIN EVA Classic / Bergamot and Olive Gins.

Niche Alcohol Supplies are continuing the moderate push to the market and have secured a feature in the Flavourly Gin Club magazine and will be featured in their monthly distribution pack for April 2018 – Watch this space.

As we travel, we are constantly on the lookout for small batch distilleries which make a more exclusive tipple – This month is no exception and after spending 3 weeks in Africa on Safari – we came across a wonderful Armagnac type liqueur steeped in flavour from the ranges of produce harvested along the Orange River, where it extends from Lesotho into Namibia, South Africa’s longest river.

We hope to add this to our range in the near future.

Anywhere that looks this good should surely inspire some outstanding produce.

ARTISAN SPIRITS

Stefan and Eva have been very busy looking at alternative drinks and have now come up with some wonderful tasting artisan spirits, one flavoured with bitter oranges and rich tasting lemons, one flavoured with Pastis, an aniseed flavoured spirit and one flavoured with fennel, thyme and bay plus other botanicals.

These spirits should be arriving on our website shortly.
